

ACI Europe Commercial & Retail event in Iceland in 2019

ACI Europe has announced officially that Icelandic airport operator Isavia will host next years Airport Commercial & Retail Conference & Exhibition in Icelands capital of Reykjavik, 18-20 March.

More than 400 airports, operators, retailers and brands will gather for a busy social networking programme and two-day working event, which will feature commercial case studies from Europe and around the globe, plus the usual deep-dive discussions into non-aeronautical revenue generation.

Exhibitors confirmed to appear at the event include Aero Parker, Apcoa Parking, HMS Host (Autogrill), Bag Wrap/Excess Baggage Company, Coindrum, Concessionaire Analyzer, Enterprise Holdings, Global Exchange, IDEas, Lagardère, Safebag, Stanley Robotics, Subway, World Duty Free and Yanu.

Keflavík International Airport is planning to add around 5,000sq m to its main commercial hall.

Further details on the conference agenda is due to follow.

KEFLAVÍK COMMERCIAL EXTENSION

As revealed exclusively by *TRBusiness*, state-owned Isavia will next year tender close to 9,000sq m of non-core duty free retail and F&B space at Icelands major aviation connector Keflavík International Airport, which served 8.8m passengers in 2017.

The tender falls in line with a significant expansion of the terminal and its main commercial hall, which is set to open in 2021/2022.
