Copenhagen hosts Mulberry Loves Craft

Celebrating the spirit of all things craft and handmade, passengers travelling through Copenhagen Airport are being offered an exclusive chance to personalise their own Mulberry bracelet as part of the touring Mulberry Loves Craft event.

The coveted pop-up promotion first launched last year at the UK's Wilderness Festival and is currently touring selected venues across the Nordics.

Centred around a rustic country kitchen table – a reminder of where the brand started, at the home of Mulberry founder Roger Saul – passengers can speak to Mulberry craftsmen and have a go at customising and monogramming their own leather bracelets from a choice of Mulberry colours: Pheasant Green, Flame, Petrol Blue, Chocolate and Oak.

Mulberry Loves Craft can be found at the Nytorv shopping area, Terminal 2 at Copenhagen Airport from Thursday 19 March - Saturday 21 March, between 11am - 5pm (while stocks last).
