

As part of its new Spring '15 beauty collection, Clarins is launching two new Instant Light lip products in January: Instant Light Lip Balm Perfector and Instant Light Lip Comfort Oil.

Following on from the success of Instant Light Natural Lip Perfector which has sold 3 million units since 2007 – the Instant Light Lip Balm Perfector is an ultra-absorbent balm presented in a new 'luscious and addictive texture'.

The formula, rich in active plant ingredients, moisturises, plumps and illuminates the lips and comes in six fresh, wet look, garden inspired colours. A natural peptide helps encourage the synthesis of hyaluronic acid, thus maintaining optimal hydration and helping to keep lips moisturised for up to four hours.

Using its 60+ years of experience producing face and body oils, Clarins has also created a beauty oil rich in active plant ingredients to nourish and enhance the lips. The 'melting' formula contains hazelnut, Mirabelle and organic jojoba oils to nourish and moisturise and leaves a shiny film on lips with no oiliness or stickiness, just a slightly sweet honey taste.

A limited edition Raspberry variant with a vibrant pink colour and fruity fragrance is included in the Spring '15 collection, which also includes a garden themed eye colour palette, kohl pencils, a Wonder Perfect mascara and Joli Rouge Brilliant lipsticks in Coral Dahlia and Rose Petal.

Available in France from 14 January 2015.
