TFWA to replace Digital Village with 'Innovation Lab'

TFWA has launched a new concept called the TFWA Innovation Lab which will replace the Digital Village at its World Exhibition & Conference in Cannes this vear.

The new 'lab' will provide exhibitors with the opportunity to showcase new ideas and fresh thinking to an audience of duty free and travel retail professionals. It will run from Tuesday 1st October until Friday 4th October 2019 alongside the TFWA World Exhibition & Conference.

In a new location, it will feature an exclusive, dedicated tented exhibition area facing the Majestic Beach.

The lab tent will be divided into four categories comprising the following: digital solutions and mobile technology; sustainability and CSR; services to travellers; instore design and research.

"One of TFWA's primary goals is to inspire our business and help create an 'engine of innovation'," said TFWA President Alain Maingreaud.

"The TFWA Innovation Lab will help our industry to shape the future of duty free and travel retail and better meet the changing needs of the international traveller. With 32 exhibitors and 1,349 visiting delegates last year, the TFWA Digital Village was a significant first step, and we plan to build on this success with a fresh new concept in a new location.

"We look forward to providing visitors to TFWA World Exhibition & Conference with a new perspective on how our industry will develop in the coming years."

TFWA President Alain Maingreaud.
